

It would be devastating for Airl to be removed from the air. Airl is a vital part of the community as that it is one of only two (Airl & KLOVE) stations that play christian music. It is the only station of the two that I can get decent reception with. Airl & KLOVE are the only stations I can listen to with my kids in the car. It is so positive and it really does change lives. These stations are priceless in the fact that there are no other options on the radio - in any other station there is foul language, perversion, and violence portrayed. At least let us keep the choice to not fill our childrens, and our own minds with garbage. Thank You
